

PT ASTIVA GLOBAL INDONESIA

Integrated Agribusiness, Poultry Farming, Industrial Food Supply, and Agro Commodity Operations

Company Overview

PT ASTIVA GLOBAL INDONESIA is an Indonesian integrated agribusiness and commodity supply company based in East Java. The company platform combines poultry farming, contract-based frozen chicken supply, and agro commodities including tobacco, corn, Bondowoso Arabica Coffee, and ginger.

Astiva develops its business around practical operations, regional sourcing access, product grading, post-harvest handling, cold-chain awareness, supply coordination, and documentation-based commercial transactions.

Corporate Identity

Company	PT ASTIVA GLOBAL INDONESIA
Business Focus	Agribusiness, poultry, industrial food supply, and agro commodities
Operational Base	East Java, Indonesia
Core Divisions	Astiva Farm, Frozen Chicken Supply, Agro Commodities
Key Commodities	Broiler chicken, frozen chicken, tobacco, corn, Bondowoso Arabica Coffee, ginger

Core Business Divisions

Astiva Farm - The poultry farming division focused on commercial broiler chicken farming, managed production cycles, and poultry supply-chain support.

Frozen Chicken Supply - A contract-based frozen chicken supply line for commercial and industrial food requirements, supported by processing-partner coordination, cold-chain handling, and shipment planning.

Agro Commodities - A structured crop-based commodity division covering tobacco, corn, Bondowoso Arabica Coffee, and ginger through sourcing, grading, handling, and commercial coordination.

Agro Commodity Portfolio

Tobacco - Own cultivation in Paiton, Probolinggo and direct sourcing from local farmers in Bondowoso and Paiton, supported by strict grading and leaf-selection discipline.

Corn - Regional sourcing from East Java and Sumba, NTT for feed, food, and commercial agricultural commodity requirements.

Bondowoso Arabica Coffee - A premium origin coffee line from East Java with selected sourcing, quality-oriented handling, and origin-based commercial presentation.

Ginger - A complementary agro-commodity line with selected sourcing, post-harvest handling, and fresh or processed product opportunities according to buyer requirements.

Quality and Compliance Orientation

- Product specification and buyer requirement confirmation before commercial execution.
- Supplier, farmer, or processing partner coordination according to product line requirements.
- Practical grading and product-condition review for crop-based commodities.
- Cold-chain planning, storage readiness, and delivery documentation for frozen poultry supply.
- Transaction documentation including quotation, purchase order, delivery order, packing list, invoice, and handover confirmation where applicable.

Supply Chain Approach

- 1. Requirement Definition** - Product type, specification, quantity, schedule, packaging, and receiving point are clarified.
- 2. Source Coordination** - Astiva coordinates farm output, processing partners, farmers, or commodity sourcing networks.
- 3. Product Preparation** - Products are graded, sorted, packed, stored, or cold-chain prepared based on commodity type.
- 4. Delivery and Documentation** - Shipment and receiving are supported through suitable logistics planning and commercial documentation.
